Equipment cart systems

swingo[®]

swingo

The robust equipment cart system with a strong profile

swingo® + swingo®-clinic: modular, proven and highly versatile for hospitals and medical practices.

Available in compact and narrow versions, this equipment cart system has a strong aluminium profile, an integrated cable duct and a large usable area, offering modular features and stability for large device combinations as well as individual design options with a range of decorative colours. Two elegant and sturdy carrier profiles support the mounting of many system components and accessories.

Choose between the swingo® in wood and plastic or the swingo®-clinic in metal, each with a panel width of 45 cm or 60 cm and four profile heights. Designed in metal, the appearance of the swingo®-clinic system for hospitals is a harmonious fit with the swingo® product line. The equipment cart systems can be supplied as a base cart, equipment cart, computer cart, endoscopy cart, emergency cart, anaesthesia cart, injection cart ... and more.

swingo®

-sturdy in wood-plastic version

swingo® clinic

-robust in metal version

The system components

- Sturdy frame with high-quality castors (Ø 100, 125 or 150 mm). Optionally fitted with brakes or electrically conductive.
- Elegant aluminium carrier profiles offer many mounting options for a range of system parts and accessories.
- Convenient cable management thanks to an integrated cable duct in the carrier profiles.
- The 45 carts have shelves that are 450 mm wide, while those on the 60 carts are 600 mm wide.
- Additional pull-out or fold-down side shelves.
- Drawers with telescopic full extension, either 100 or 200 mm high. Can optionally be locked or heated.
- Sturdy push handles with a curved design, decorative stripes and drawer handles in grey, blue, red-violet or yellow.
- Accessories for many areas of application.

Customised is our standard

For maximum mobility in the workplace

Since 1933, our company has been employing smart ideas and applying practical solutions to develop countless innovative product lines in the area of multipurpose equipment carts. These have been marketed worldwide with great success.

With our products and solutions, we guarantee maximum mobility, flexibility and reliability in the workplace. This means everyone can focus fully and completely on their own work.

We consistently implement the basic modular idea to develop practical solutions. The wide variety of standard components makes each individual cart an individually tailored customer solution – whether it's for a doctor's practice, small volume production or large quantities for equipment manufacturers. Even if you need to have it tailored just for you – HAEBERLE will make this possible.

HAEBERLE HAS IT: a modular basic system for your multifunctional carts. And if you need something extra? No problem, remember HAEBERLE MAKES IT: exactly the customised solution you require.

Variety of colours

Choose from 4 fashionable colours for decorative strips and handles.

In your order please specify the colour code by adding it as the last digit to the reference number.
