

HAEBERLE

mobile workstations

A three-tier mobile workstation cart with a drawer and casters. The cart is light gray with a dark gray frame. It has three shelves, a drawer at the bottom, and four casters. The top shelf has a small green logo that says "toro".

28,000 MODULAR SOLUTIONS

Useful products that are successful over the long term are the result of good ideas from customers and creative realisation by a competent development team.

We have consistently applied this philosophy to our range like no other company in the trade – and offer the widest possible variety when it comes to designing your individual standard cart system.

As you face a series of decisions, our medical product advisers will guide you step by step along the way, depending on which product line, which accessories and which configurations you choose.

Detailed information about all our products can be found in the corresponding product brochures and price lists as well as on our website.

Little effort, great effect

Just by varying the basic components, you can customise your individual cart.

CUSTOMISED IS OUR STANDARD

For maximum mobility in the workplace

Leading in configuration of standardised multifunctional cart systems.

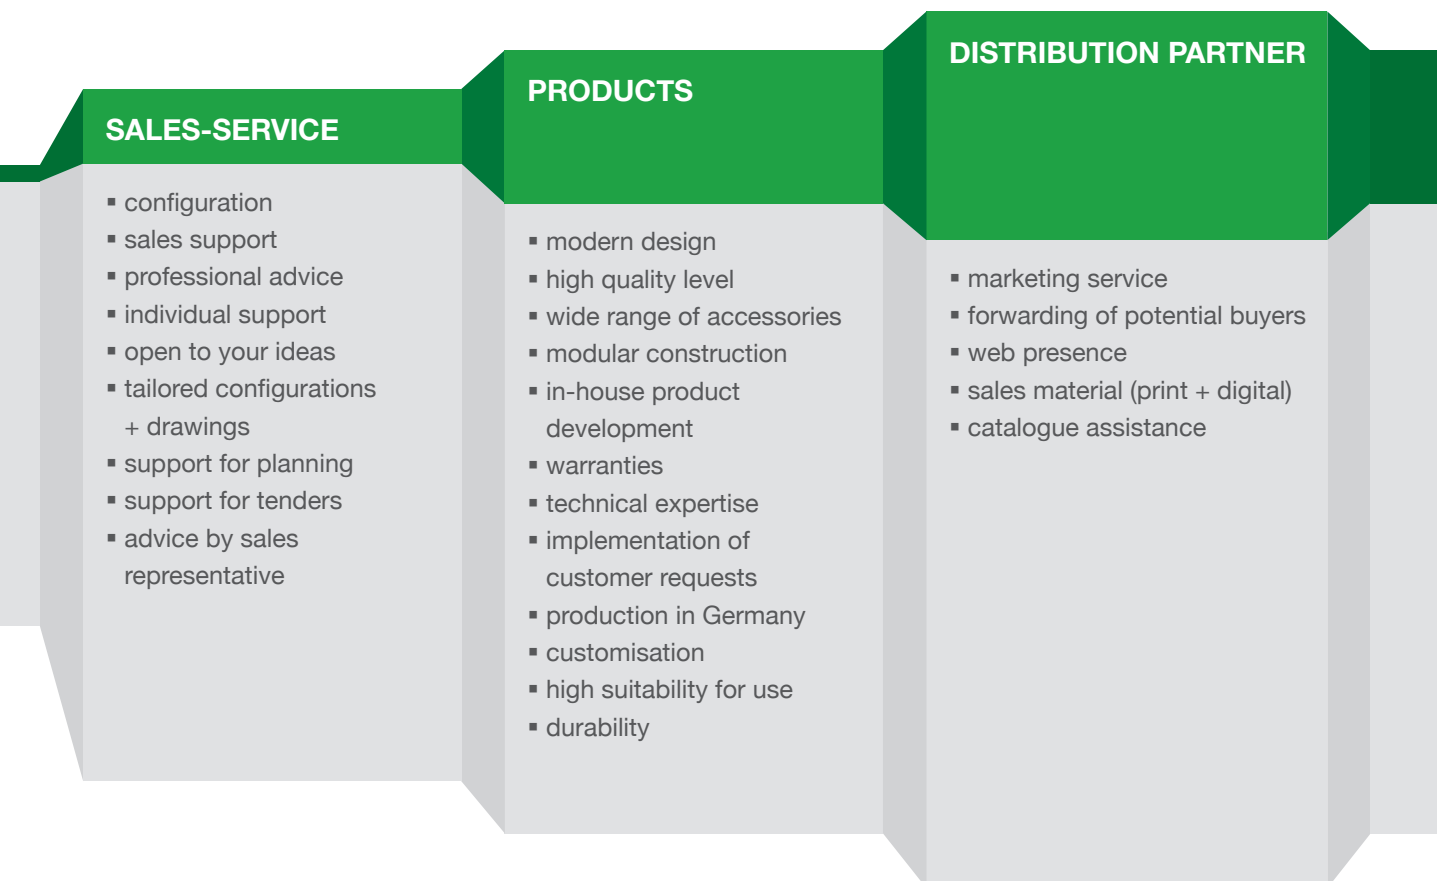

Since 1933, our company has been employing smart ideas and applying practical solutions to develop countless innovative product lines in the area of equipment carts and multipurpose trolleys. These have been marketed worldwide with great success.

With our products and solutions, we guarantee maximum mobility, flexibility and reliability in the workplace. This means everyone can focus fully and completely on their own work.

We consistently implement the basic modular idea to develop practical solutions. The wide variety of standard components makes each individual cart an individually tailored customer solution.

Whether it's for a doctor's practice, small volume production or large quantities for equipment manufacturers. Even if you need to have it tailored just for you – HAEBERLE will make this possible. Good ideas are included.

Leading concerning achievements for medical specialised trade and industry.
