bravo[®]

bravo

The smart and agile equipment cart

Ideal for bargain hunters:

An elegant, low-cost cart for your equipment.

The new “bravo” cart model is presented in a light design and has been specially developed for transporting small devices.

“bravo” can be used everywhere to accompany the mobile use of small devices; in doctors’ surgeries, dental practices, clinics and beauty studios, and is also ideally suited for presentational devices in offices and for measuring or testing devices in industrial settings.

Do you prefer the idea of something special, which meets your particular requirements? A tailor-made version of “bravo”, matching your latest generation of devices and corporate identity?

Customisation is one of our great strengths. Please get in touch – we are always happy to discuss any special wishes you may have.

is protected with a European design patent and is a symbol for reliable brand quality at a reasonable price.

The system components

- Easy to manoeuvre yet stable chassis with high-quality double swivel castors including wall guards and 2 brakes.
- Sophisticated, two-part aluminium carrier profile, each with integrated cable duct and 2 decorative strips at the front and back.
- Decorative strips can be supplied as standard in 3 different colours.
- Carrier profile heights of 780 mm or 900 mm are available.
- Hard-wearing, hygienic metal shelves with pull handle, or also available with push handles.
- Practical and extendable white storage bowl (polycarbonate) with cover plate to provide dustproof storage of small accessory parts.
- Accessories for many purposes, which can also be retro-fitted at any time.
- Customised dimensions or colours are available on request.
